

2008 Legislative Council Election Forum
Information Technology Functional Constituency (ITFC)
2008年立法會功能界別(資訊科技界)選舉論壇

Dear Members and Friends,

As the Legislative Council (LegCo) Election is approaching, Project Management Institute, Hong Kong Chapter takes pleasure to join hand with 22 professional associations to co-organise a forum for the candidates running for the IT functional constituency in the 2008 LegCo Election. This forum will provide you with a valuable opportunity to learn more about the candidates and their election platforms.

Our IT LegCo representative plays a crucial role in serving as a bridge between the IT sector and the HKSAR Government. It is therefore important for us now to make a well-informed decision in giving our votes to the candidate who can best channel our views and stand up for the interest of the IT sector. We strongly encourage you to attend this forum and seize this opportunity to share your view and expectations with the candidates about their roles and the IT sector's future development.
