

President Elect: Christine Siew Feong YAU

Vision Statement:

My mission is to promote PMI HK Chapter within HK, in the region and among other PMI Chapters. I shall work closely with the PMIHK Executive Team, the advisory board, Region9 Mentor and PMI to develop the strategic and tactical steps to provide a forum for project managers to share and further develop project experience through networking, seminars, training and certification. I shall provide general supervision to the business and affairs of PMIHK, provide support and guidance to the Executive Members, and responsible to Advisory Committee and PMI Headquarters.

I will further extend the recognition of Project Management as an indispensable competency beyond the IT sector, initiate more collaboration with other professional associations in HK, the HKSAR government, corporations in public and commercial sectors and to provide support to members and local organizations educational, networking, mentoring and business requirements. As a group, we extend our help to the community where we will provide community services and also talent cultivation.

As part of the strategy, priorities will be on the following areas:

1. Collaborate with different NGOs, associations and volunteer groups in HK and Asia Pacific region to foster project management into different industries.
2. Promote adoption of good Project Management as a professional practice to entrepreneurs, enterprises and large organizations through various chapter events such as PM sharing sessions, training, certifications, seminars, consulting, job posting etc.
3. Improve both the PMI and PMI local chapter membership benefits through various means e.g. having special projects with other Chapters, offering seminars with PDU for PMP, networking sessions and activities among members, employment opportunity referral network, knowledge repository with useful tools and articles
4. Extend project management development into younger generations, from primary, secondary to tertiary students, to equip them with knowledge of PM knowledge and practice.

Promote and exchange of successful Project Management through local and overseas award competitions for schools/universities, enterprises and individuals

PMI Leadership Experience:

I have been serving PMI HK Chapter since 2007 where I started as the Chairperson of IT Club, the first specific interest club of PMI HK Chapter, and then as VP Education of PMI HK Chapter for 2 terms (2009 – 2013), followed by EVP External for 3 terms (2013-2019).

Key contributions over the years:

- Served as the Chairperson of IT Club in 2007 to 2013, and managed to bring in more PMI memberships and encouraged more sharing among the PMs.
- Served as “Chairperson” role of the International PM Forum held in 2011 (Leadership position for the Regional AP Event – PMI HK Asia Pacific Project Management Congress 2011 - Organizing Committee Chair)
- Served as the Chairperson for the PMIHK Chapter 20th Anniversary events throughout the year of 2017, closing with the Congress and 20th Anniversary Dinner held at Ocean Park Hong Kong.
- Lead and coach VPs and program committee, including volunteers and sub-committee members in planning and execution of the annual PMI International Congress held in Hong Kong from 2011 until 2018, where we have successfully hosted for over 2000 participants cumulatively.
- Cultivate more talent within the PMI HK Chapter where new executive members were being brought into the Chapter to serve our members better and to help in developing younger talents.
- successfully promote project management into corporations and extended the service of PMI HK Chapter to help corporations on certification for their staff.
- successfully planned and executed a variety of training courses to help to generate revenue to sustain the operation of PMI HK Chapter and also to provide more value added services to our members and non-members e.g. uplifted the education service to both PMI members and non-PMI members where a variety of courses were offered to enrich PM's knowledge and skills in managing projects (both soft and hard skills), attended by both local and overseas participants. That has helped to put the Chapter in a very sound financial status and enable us to provide more value added services to our members.
- Serve as EVP External of PMI HK Chapter to promote project management at different large corporations and as key speakers at various PMI Asia Chapters such as Taiwan, Korea, Mongolia, Japan etc. and at PMI China Congress.
