

VP-Membership Elect: Hung Kin Yip, Kenneth

It is a great honour for me to play the role as the VP Membership for PMI HK Chapter. During the coming 2 years, I will devote my time to develop and promote the Membership Values and to strengthen the networking among our members. I truly believe that it is of paramount importance for our members to have a strong sense of belonging to this renowned professional organization.

For the existing members, opportunities will be provided for them to share experience and to further develop their profession so as to make them feel as part of this family of learning and friendship.

At the same time, activities will be organized to encourage more project management professionals to join PMI to strengthen the development of our organization.

I am looking forward to work closely with all of you to further develop the organization of PMI HK Chapter.

**Vision Statement:**

Should I be elected as the VP Membership, I will further develop and promote the Membership Values among the PMIHK Chapter members. I will also promote more collaboration and sharing among the PMIHK members in order to gain value from each other and to strengthen our networking. By creating more benefit and value to the members, it will help to support the membership growth and to encourage project management professionals to join the PMIHK Chapter, and to retain existing members. Unleash the joy from “To Serve and Grow” to the PM community, I will promote the membership value with events exclusively for members in order to make them feel as part of the family of learning and friendship. I will also lead and coach sub-committee members so as to build up a team to provide volunteering services to the chapter

**PMI Leadership Experience:**

- Sub committee member of Education, PMI HK Chapter
- Volunteer to help out with the preparation and on site participation at the Project Management Congress 2018
