

VP- Volunteer Development Elect: Alex Chi Hung SIN

Vision Statement:

Vision: PMI Hong Kong Chapter is the first choice of professional bodies for those who want to serve the community

The end of election is just a starting point for my new role as VP Volunteer. Having served the PMIHK for more than 10 years, serving volunteers is another challenge for me. People joining PMI is not only for credentials but also treasure the network with other professionals across industries. I shall continue to meet members in different occasions and especially address their needs. As I mentioned in previous election statement, our volunteer strategies are to:

- group volunteers to support Chapter missions and activities
- have experience sharing through different kinds of gathering
- assist professionals to achieve PM related credentials
- promote PM practices across industries

Here are the major programs and related activities in coming months:

- Volunteer briefing session
- Volunteer database validation
- Special interest group gathering
- Mentorship, and
- Site visits

Your support is important to us, and I look forward to having your entry or update to the PMI volunteer database. Again, it's my great pleasure to serve you in my new role. Feel free to reach me at alex.sin@pmi.org.hk

PMI Leadership Experience:
