Editor's Desk

Greeting from PMI Hong Kong Chapter.

Welcome to our Chapter *Newsletter* again with the new PMI Branding.

In this issue, we will share the new PMI branding story, chapter activities and upcoming events with you.

As we are preparing this newsletter, the coronavirus is still spreading all over the world. We hope everyone stays healthy and safe during this difficult time.

We will always strive to make our newsletters as informative as possible and we are always open to any ideas that will help us to improve our Newsletter. Please email your ideas to the editor directly or to any of our chapter leaders.

Thank You Very Much and Enjoy Reading!

Newsletter Editor,
Eva Ma

President's Message

Since my last message in our Chapter's newsletter in November, PMI HK Chapter has faced a lot of challenges. A lot of the events in 2019 have either been cancelled or postponed because of the ongoing social unrest in the city. Meanwhile, through careful arrangements by the organisers, some events were held smoothly. One of the events successfully held was the Chapter's premier event, the PMI HK Asia Pacific Project Management Congress 2019 which was held on Saturday, 16 November at Cyberport. I would like to thank our Guest of Honor, Sponsors, Speakers, Guests, Executive Committee Members, Volunteers and all the attendees who made this congress a success.

Despite the constraints thrown at us, the "show must go on" and I am pleased to share with you our achievements since November 2019 to April 2020, through the dedicated efforts of the Executive and volunteers, and with the support from the members and friends.

In preparation for the Congress, the organizing committee prepared risk mitigation and contingency plans for all possible events that may happen on the day of the Congress, and on the celebration party night. As a result, on the 16 November 2019, the Chapter held one of its most successful Congresses at Cyberport. The event was attended by over 200 attendees, with guests from Taiwan, Japan and Mongolia Chapters and from PMI Asia Pacific office. More about the Congress in this newsletter issue.

PMI launched the new PMI logo on the 5 October 2019 at the PMI Global Conference 2019 in Philadelphia at the Pennsylvania Convention Centre. I had the privilege to meet Mr. James R. Snyder, one of the five Project Management Institute Founders, who is casually referred to as the "Father of PMI", when I attended the Global Conference in 2019. In the same year, PMI HK Chapter also launched the new PMI HK Chapter logo at the PMI HK Asia Pacific Project Management Congress 2019 on the 16 November 2019. The new logo comes with a brand personality of Fearless, Bright and Nurturing.

Our PMI HK Chapter website, social media Facebook and LinkedIn sites have also been launched with our new logo "Project Management Institute Hong Kong Chapter" with postings of our latest news and upcoming events, training sessions and seminars. Please visit our official PMI HK Chapter website (<https://www.pmi.org.hk>), Facebook (<https://www.facebook.com/pmihongkong>) and LinkedIn (<https://www.linkedin.com/company/pmihk>) sites.

Follow Us!

In keeping with our commitment to engage closer with our members, a Chapter members' event on 17 December was organized to commemorate PMI 50th anniversary and to celebrate Christmas and close out the 2019 year. In the spirit of Christmas, we held a lucky draw with lots of prizes for all the attendees, and all participants had a great time during the 2 hours party. In closing out 2019, PMI HK Chapter also achieved its goal in 2019 and obtained 3 badges from Project Management Institute, i.e. 2019 Achievement in First Year Retention, 2019 Achievement in Membership Growth and 2019 Achievement in Membership Retention .

In early 2020, COVID-19 presented a challenging time for all of us as the world confronted the pandemic together. The COVID-19 situation has introduced social distancing which has prevented the Chapter from holding onsite training classes, seminars and members' events. However, this has not stopped us from serving the members and we continue to connect and engage with one another to share information, ideas and knowledge. We have successfully used online live streaming tools to conduct seminars and trainings, and will continue to run more of these training sessions, seminars and members' events until the COVID-19 situation is over. Please visit our social media sites and our website and register for these events.

Another consequence of the COVID-19 is the disruption of PMP certification exams. In response, PMI has offered to reschedule the exam and automatically extend the exam eligibility to 18 Jan 2021, while extending access to the current PMP exam until 31 December 2020 and postponing the launch of the new PMP exam until 2 January 2021. PMI is also providing the option to take the Project Management Professional (PMP) exam online.

The project management profession is resilient and flexible and will continue to deliver projects in these trying times. I thank you for your continued support for our Chapter and the Chapter will continue to find innovative ways to serve our members.

Stay healthy and safe !

Best Wishes

Christine Yau

PMI New Branding Story

By Eva Ma – VP Marketing

The Project Management Institute was founded in 1969

When project management wasn't a thing yet.
It was a small group of people talking about new tools and process that were changing the way work was being done.

**Today, the world of work is changing faster and ever.
We are broadening the stories we tell and the roles we play.**

THE PROJECT ECONOMY

Today, organization and people are centered around a portfolio of projects to deliver outcomes.

At PMI, we call this new way of working **“The Project Economy.”**

For people, this means they need the right skills and mindset to move seamlessly from project to project in order to help their organization deliver strategic outcomes.

For organizations, this means decision-makers need to understand how to staff the right people to form project teams that drive strategic outcomes.

SYMBOLS

There are 10 unique symbols that make up the language of **The Project Economy**, 8 of them are available for use by everyone in the PMI brand ecosystem.

These symbols create a consistent design language that represent some of the characteristics needed to be successful in the future. Over times, as we use them in our communications, these symbols will help shape and define The Project Economy, and demonstrate PMI's authority and leadership in this space.

COLLABORATION

We can't do it alone. Whether its partnering with a colleague, client, company or non-profit organization, each of us brings something unique to the table. And we are make be stronger when we work together.

DETERMINATION

Sometimes projects go according to plan. Most of the time, not. Perseverance is needed to complete any project and successfully deliver outcomes that makes a difference in the world.

INNOVATION

New ideas. New products. New methods. Constant transformation is what helps us tackle new problems and find fresh solutions. We know that the world isn't one-size-fits-all. We bring new takes on everyday things to constantly move forward and make life better across the world.

TEAMWORK

Project are delivered by people, but winning projects are delivered by teams. Project delivery relies on team players and people who contribute added value to any project, making the team stronger.

OUTCOMES

We celebrate not just the process, but the positive impact that projects around the world makes on society. We're changing the world-for the better-one project at a time.

GROWTH

Change and transformation, while at times unfamiliar, spur progress. Whether it's skill development or organization expansion, growth brings new opportunities into our economy--and contributes to the greater good.

VISION

This can mean bring unconventional. It can mean coming up with new ideas to solve new challenges. It's about perspective. Seeing the big picture, and the ability to create solutions for now that are sustainable for generations to come.

COMMUNITY

The people that are part of our world make it what it is today. Our community is one of our most valuable assets. We celebrate it and keep it going by welcoming all who wish to join us to make the world a better place.

Our Brand Positioning

We power The Project Economy, strengthening society by enabling organizations and empowering people to make ideas a reality.

Our Brand Story

We lead change

We have a vision for the future and know what's needed to make it happen.

We cultivate passion

Nurturing the hearts and minds of people, gearing them for achievement with a dedication to deliver real outcomes.

We build community

Connecting people to the right resources, tools networks, and communities they need to reach their full potential.

We celebrate outcome

Fostering the perspective to remind us why we do what we do, and the will to get it done.

Our Brand Personality

We are Fearless

We are unafraid to try new approaches, we learn from our failure and move forward, paving the way for those brave to do the same.

We are Bright

We enlighten and energize people to make a difference in the careers and an impact in their communities.

We are Nurturing

We understand what our community needs, help people get where they want to go, and celebrate them along their journey.

Sharing from PMI Region 9 Mentor

By Danny Chung, Region 9 Mentor, Project Management Institute

Dear members and friends from PMI Hong Kong Chapter,

你好! Nǐ Hǎo!

This is Danny Chung – your PMI Region 9 Mentor. I wish you all are staying safe and sound in this pandemic period.

In my 1st e-message to all of you, please allow me to share little background of myself. I joined PMI Hong Kong Chapter in 2004 and have been serving in PMI as global volunteer for over 20 years. During the day, I am a regional Head of IT and outside of the office, a blessed family man with two children, one wife, and no pets. We are currently happily living in Hong Kong.

My 1st volunteer job in PMI was teaching PMP examination preparation course in Southern Ontario Chapter, Canada. I also served in founding the Information Technology Special Interest Group (IT SIG), monthly members' meeting and annual congress. It was a small operation back then: we ran around between public libraries for training and meeting venues. Chapter leadership meeting were held in leaf-filled backyards or freezing wintertime basements. Because of project assignment, I was relocated to Hong Kong in 2004. I am privileged to volunteer in Hong Kong Chapter with 3 blessed past chapter presidents – Patty Wong, Raymond Wong and Rossana Ho and now Christine Yau – an authentic, dedicated leader!

So what does a Region Mentor do? I believe in Servant Leadership. A leader always serves first, and then leads. I like serving people and I volunteered for the PMI Region Mentor role to share my experience at the chapter level and inspire local chapter leaders. I have been there, done that and seen what my chapter leaders are facing so I believe I can support them. I am a volunteer liaison between PMI and the community, providing advice, information and guidance on governance and organizational practices and policies to PMI community leadership in the region to foster and strengthen relationships, and enhance communications. I encourage networking and facilitate collaboration among chapter leaders together. I will use 3 Cs to summarize my role as your Region Mentor:

- ※ **Connect** local to global and also global to local – I am here to build connections between chapter and HQ, between members and chapter + region + global.
- ※ **Challenge** (grow) – I am here to challenge myself in serving and leading with a growing mindset. I embrace new ideas, rejecting the status quo and learning from failure. I am here to grow the suite of services available to chapter members, grow our value, relationships, board members, and membership.
- ※ **Cherish** – I cherish the opportunity of serving over 20 years in PMI. It is a great opportunity to learn from other professionals and give back to the project community in a diverse multicultural environment. Most importantly, I cherish the friendship in ONE PMI.

I work hand in hand with the PMI Chapter Partner (Siti Rozianti) and the Chapter Administrator (Xing Ying LEE) in the PMI APAC office, Singapore and we have a common goal to support the local chapters.

Please also allow me to take a moment to introduce the Region 9 community:

- ※ R9 is a happy family comprising of 5 chapters (Hong Kong, Mongolia, Japan, South Korea, and Taiwan). We have the youngest family member in Asia (Mongolia) and also largest chapter in Asia (Japan has four thousand chapter members).
- ※ We are also close (by geographic distance) to two PMI regional offices – APAC (Singapore) and China office.

		
<p>Christine Yau (Chapter President, PMI Hong Kong Chapter)</p>	<p>Hirotohi Kamba (former R9 Mentor, PMI)</p>	<p>William Chen (Chapter President, PMI Taiwan Chapter)</p>
		
<p>Katae Aritoshi (Chapter President, PMI Japan Chapter)</p>	<p>Kwang-ho Choi (Center, Past Chapter President, PMI South Korea Chapter) and Boldoo Magvan (Right, Chapter President, PMI Mongolia Chapter)</p>	<p>YeYoon Kim (Left 1) – Chapter Partner Siti Rozianti (Left 2) – Chapter Partner Christine Yau (Right 2) – Chapter President, PMI Hong Kong Chapter SoHyun Kang (Right 1) – Manager, Chapter Development APAC</p>

After I came on board in this role in January this year, I started constant contact with Chapter Presidents on a couple of strategic initiatives and tactical measures in COVID-19 period.

Let's start with COVID-19. We followed guidelines from our countries' health authorities and PMI Headquarters in maintaining social distance. We offered complimentary WebEx video conferencing facility for board meetings, trainings, and webinars. Some of you may have attended the April monthly seminar, so please feel free to jot me a note on your thoughts and feedback. The PMP examination is also available online in multiple languages and many COVID-19 updates are available on our PMI website. Please check it out from time to time.

Strategically, I am pleased to share with you all that transformation of PMI is going smoothly. It is not just a rebranding program. It is an inside-out transformation, from a new logo to new value to our members (1.6 million certifications!). Through the new operating model, local chapter operations and training partner programs are tailored to the region and its members. To strengthen the support in transformation and delivery of new PMI value in Asia, a new regional executive position is created – Mr. Ben Breen (Managing Director, PMI ASEAN), based out of Singapore. Ben, SoHyun Kang (Manager, Chapter Development), APAC team and I are here to support each of you from Hong Kong Chapter.

Feel free to send me an email at <danny.chung@mentor.pmi.org> or call me at +852 9646-9020.

Until next time, stay safe and blessed.

PMI Hong Kong Project Management Congress 2019

By Anthony Tsui - Executive VP Internal

Against a background of social & political disruption & unrest, PMI Hong Kong Chapter was able to successfully navigate these challenges to successfully host the 2019 PMI HK Project Management Congress held 16 November at Cyberport Convention Centre.

The theme of the Congress was "**Imagine the World, Lead the Way**". Coinciding with the 50th anniversary of PMI, commemorating the 50th anniversary of man landing on the moon, this congress set out (through its lineup of distinguished local & international guest speakers, anchored by Dr. George Lam, BBS, Chairman, Hong Kong Cyberport Management Company Limited) to explore on the potential of the Greater Bay Area, the impact of Technology across diverse industries such as Financial Services, Agriculture, Healthcare, the challenges & opportunities of Digital Transformation, the importance and business value of Enterprise Strategy and the important role that Project Management plays in all of these initiatives.

In addition to the valuable insights, the PMI HK Congress unveiled a new look for PMI HK Chapter, which brings renewed focus and emphasis on the building blocks of successful delivery such as collaboration, determination, innovation and teamwork.

Last but not least, I would like to sincerely thank all our dear sponsors, delivery partners, organising & executive committee, volunteers, speakers and delegates for all your support. We look forward to your continued support as we endeavor together to advance & advocate the field of Project Management.

Thank you for all your great support to make PMIHK Congress a great success!!!

PMI Hong Kong Chapter Executive Committee with our Guest of Honor, speakers and guests

Christine Yau presented a gift of appreciation to the Guest of Honor Dr. George Lam

See you all next year!

2019 PMI Taiwan Project Management International Congress

By Alex Sin - VP Volunteer Development

2019 marked the 50th anniversary of PMI and also the 20th anniversary of PMI Taiwan Chapter. The PMI Taiwan International Congress was kicked-off by Mr. Randy Black, 2019 Chair of Board of PMI. This event brought together project management professionals, business leaders & delegates from local industries, distinguished speakers & guests from Taiwan and overseas as well as representation from PMI Asia Pacific & China offices, PMI Region 9 Chapters: Japan, Hong Kong, South Korea, and Mongolia.

The theme of Congress was: **“Staying Ahead – Building a future-proof Project Management Profession”**. Out of all the great sharing and valuable insights, there were two sessions that we would like to make a special mention of:

- 1) **‘It is love that opens hope’** delivered by Professor Brahms Kuo. Using real life examples from the musical world and earnest participation from the whole audience, Professor Kuo articulated that project management professionals just like in music, may need to act sometimes as a leader, sometimes as a team player depending on the situation.

However, both roles are equally important and must work in synergy & harmony like choir for the project to be successful. In addition, musical performance just like in projects are underpinned by scope & time management, strength & quality of teamwork and relationships. Without these ingredients, it will be very challenging and difficult for the performance or project to be successful and sustainable.

- 2) **‘Turning point in life’** delivered by Mr. Shih-Feng Chen, Association of Mouth & Foot Painting Artists.

In his inspiring and heartwarming sharing, Mr. Chen recounts the devastation of losing both his two arms in a childhood accident. Even when those closest to him had lost faith and hope, Mr. Chen remained determined to turn his life around, in the process not only did he overcome many obstacles but also discovered hidden talents in painting and mechanics. Now as a famous mouth & foot painter and pioneer of custom-made vehicles, Mr. Chen is a true testament to the power of positive thought and courage conquers all.

Sharing by Mr. Shih Feng Chen

Last but not least, together with PMI, PMI Taiwan Chapter celebrated their milestone anniversaries with song & dance, rounding off a fantastic & memorable experience for all.

Happy PMI 50th Birthday Bun

Mr. Randy Black and Mr. William Chen, President of PMI Taiwan, cutting the PMI 50th birthday bun.

PMI China Congress 2019

By Janet Yu - VP Certification

The **PMI China Congress 2019** was successfully held on 26-27 October 2019 at the Shanghai International Convention Centre in Shanghai. The theme for this year is “**Technology Made Possible by a Project Manager**”. The Congress saw a turnout of 1000+ attendees, including Mr. Sunil Prashara, the President and CEO of PMI, Chapter leaders from Hong Kong, Japan, Taiwan, Mongolia, Korea and distinguished international speakers and guests.

Photos taken at the Congress venue

It just so happens that this year is also the **50th anniversary of PMI** and the **20th year** since the introduction of the PMP certification into mainland China. We were delighted to have met **Mr. Sunil Prashara** there. He is an advocate of technology and believes that it is a major enabler of business transformation today. To kick-off the Congress, he delivered a keynote speech on “**Leading Projects in the Age of Disruption**”, where he illustrated how technologies such as AI and 5G impact businesses all over the world, and how PMI can help project managers deliver value to stakeholders through successful completion of projects – **the Project Economy**.

The other impressive session is the “**TED Talks**” curated for PMI by TED. The session includes several TED Talks that presented some very unique projects in different disciplines. Among the speakers, **Mr. Ma Yansong**, a Chinese architect, introduced a number of his architectural designs that blend modern buildings with the natural environment. He said he does not like to see just “matchboxes” in a city and his designs are all inspired by nature - mountains, clouds, volcanoes etc. Some of his works include:

- * The **Absolute Towers** in Mississauga, a city outside Toronto. They are high-rise, residential towers and people call them Marilyn Monroe Towers because of their curvature.
- * The **Huangshan Mountain Village**, a large residential complex in China. He took the contour lines from the existing mountains and translated them into buildings, each having a different shape and size.
- * The **Harbin Opera House**, is a multi-venue performing arts centre in Harbin, China. It was made to look like a snow mountain so that it can be part of the surrounding landscape and merge into the horizon.

The Absolute Towers (above) and The Harbin Opera House or The Harbin Grand Theatre (below) (Source: Wikipedia)

There was a reception held at the end of day one for celebrating the 50th anniversary of PMI. Everybody enjoyed the good food and drinks while mingling with old and new friends. The Congress successfully concluded with a dinner with the PMI Chapter representatives.

Photos from dinner after the 2-day Congress (Left: Christine taken with Sunil Prashara and Bob Chen, MD of PMI China)

Member Event

PMI 50th Anniversary & X'Mas Party 2019

By Keen Lam - Executive VP Finance

The Chapter held a Chapter members' event on 17th of December 2019 to commemorate the 50th Anniversary of the founding of PMI as well as a timely Christmas party to wind up 2019.

This event was held at Fortress Tower in North Point, with free admission for members as part of the Chapter's member networking initiative.

President Christine's welcome

President Christine Yau welcomed all the Chapter members, and invited guests which included Chapter advisors and friends. Here are some of the interesting topics covered in her opening speech:

- * 50th Anniversary PMI celebration video – a pulsating 45 second video showing celebrations at various chapters around the world
- * Roundup of PMI HK activities during the year, highlights include:
 - Elections for the 2019/2021 term in Apr and May
 - Members' networking and sharing session on 19 Sep
 - **Asia Pacific Project Management Congress** on 16 Nov
 - Launch of New PMI HK Chapter Logo on 16 Nov
 - PMI Regional Congresses – APLIM, Japan, Shanghai, HK, Taiwan
- * PMI Branding – brand personality
 - 3 colours, representing **Fearless**, **Bright** and **Nurturing**
 - 10 symbols, representing the key elements of the project management profession

The PMI 50th Anniversary Birthday cake

Everyone raised their glasses to celebrate the event, followed by the cutting of the cake. We somehow managed to take photo of everyone at the party.

The Christmas party celebrations, the sharing and networking

After the opening speech, the everyone enjoys the buffet style dinner and had a great time, eating, meeting friends old and new, and sharing the spirit of the season.

Games and prizes

Prizes were awarded to members during the games. Here are some of the lucky winners and their happy smiles.

Thank you and goodnight

The Chapter thanked all attendees for the joyous gathering, in celebrating the 50th Anniversary of PMI, enjoying good food, meeting fellow project managers and friends, and taking home their lovely presents.

PMI HK Chapter 2019 Achievement in Membership

By Kenneth Hung - VP Membership

Project Management Institute Hong Kong Chapter has achieved 2019 goals in membership growth and retention and has obtained the following badges from Project Management Institute.

Thank you very much for your support in 2019 and looking forward to your continuous support and also introduction of more new members to the family.

Achievement in Membership Growth 2019

Achievement in First Year Retention 2019

Achievement in Membership Retention 2019

New Measures for PMI Exam Takers

By Janet Yu - VP Certification

As the COVID-19 pandemic continues to spread globally, PMI announced a new update on 18 March 2020:

- ◇ You can reschedule your exam and PMI will automatically extend your exam **eligibility** until **18 January 2021**.
- ◇ All paid exam fees will be eligible for a **refund** and you will be able to **reschedule** without accruing penalty fees.
- ◇ Extend access to the **current** PMP exam until **31 December 2020**.
- ◇ Postpone the launch of the **new** PMP exam until **2 January 2021**.

Click here to read more about PMI COVID-19 updates: <https://www.pmi.org/about/coronavirus-single-source-message>

Click here to check the exam center updates: <https://home.pearsonvue.com/coronavirus-update>

To keep learning while you are working from home, here is a bunch of **free resources** to help you enrich your project management knowledge or even gain PDUs:

<https://www.pmi.org/about/coronavirus-single-source-message/resource-hub>

PMP Exam Online from April

You can now take the Project Management Professional (PMP) Certification exam online from home or office, 24/7. The online exam is administered on a secure platform using proven exam delivery technology. It is exactly the same as the version administered at a test center. For more information, click here:

<https://www.pmi.org/certifications/types/project-management-pmp/exam-prep/online>

As a reminder, the [PMI Agile Certified Practitioner \(ACP\)](#) and [Certified Associate in Project Management \(CAPM\)](#) certifications can also be taken online.

PMP introduce 10 minutes breaks during exam

Both the online proctored testing and center-based testing option for the PMP exam now have a built-in 10-minute break. The exam is now divided into two parts. You will start the break once you complete and submit the first part of the exam. Please note, you will NOT be able to review questions from the first part of the exam after you start your break.

You will be permitted to leave the room during the break. Once your 10-minute break is over, your proctor will check you back in and you will finish the second part of your exam. If you do not return to the room at the conclusion of your 10-minute break, your exam session will be terminated.

Click here for a summary of the changes in PMP certification: <https://www.pmi.org/update-center/certification-changes/pmp>
