

VP Young PM Development Elect: Mr. YEUNG Kun Woon

Vision Statement

Youth development is essential, especially in the current century. It is a way for the succession of our knowledge and experience with the next generation. In each generation, we accumulate our wisdom and knowledge by personal experience or learning from others. Throughout the process, we keep improving our quality and contribute to the society. With this thought, I select this area – Young PM Development to be my interested development area.

My vision includes the follows:

- Promote project management knowledge and practices to university students. That may pave the way for them to further develop interests in their career directions.
- Organize seminars and workshops to guide students how to prepare for the interviews and polish their CV.
- Organize Young PM club to connect these youngsters and invite them to join our events.
- Encourage them to take CAPM certificate.

PMI Leadership Experience

PMIHK VP – Education from 2017 to 2019

PMIHK VP – Young PM Development from 2019 to 2021
